

## **PARKING FAQ'S:**

**How close can I park to the Hyatt?** The Hyatt is IN the long term lot. So in theory you can park very close. Follow the signs to "Hyatt Parking". Don't be confused because it also says "Valet Parking". It's the same place. Once you're in the lot, drive toward the Hyatt-that big tall gray building.

**What if all of the close places are taken?** They probably won't be - see why, below. **But, you can park anywhere in long term or extended term – and parking there is free for bridge players.** There is a people mover available at the end of the long term lot-- a door in the people mover opens into the Hyatt Lobby. Also the **parking shuttle** goes 24 hours a day and will drop you at the airport, and you can take the people mover from there. Inside the hotel you will be able to get a parking validation to exit the parking lot free of charge.

**But how do I get to the Hyatt from the Airport?** You take the people mover. I did it this week. It took me 4 minutes.

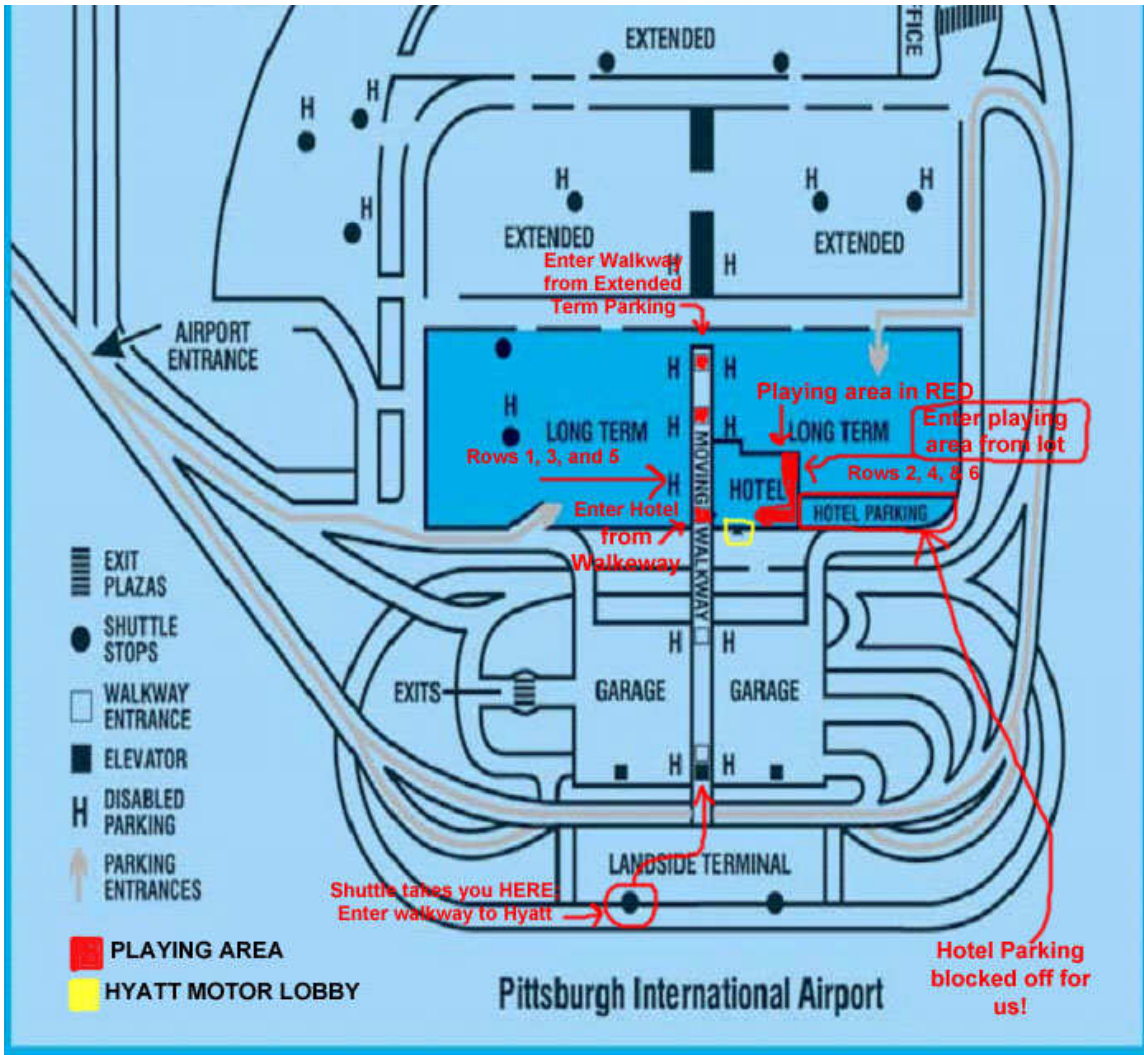

**What if I am being dropped off?** You can be dropped off at the motor Lobby of the Hyatt, shown in yellow on the **attached map**. Your driver doesn't have to pay for parking if you are dropped there. You also park there (temporarily) if you are checking in.

**Which areas of the lot are closest to the playing area?** Sections 4 and 6 are just outside the playing area. Sections 1, 3, and 5 are on the opposite side of the people mover, but they are almost as close. You can enter the people mover and exit at the Hyatt.

**Can't you help us more?** Yes! We have negotiated with the airport to "save" the places next to the Hyatt for us. The portion of the lot closest to the playing area will be closed over the weekend and won't reopen until Tuesday afternoon. We will have signs at the entrance to that portion of the lot asking non-bridge-players not to park there.

**What if I have another problem?** Come to me, Judy, or Lou. We really want to make this work. We're sure that if you give it a try, you'll love the new tournament. As they said in the old commercial, "Try it! You'll like it!"
