

## **ACBLScore AND YOUR STAC GAME**

Continue to use Club Mode for your STaC.

Do not switch to Tournament Mode. In defining the specific parameters of your game, you must:

- *Set up as usual until you get to event rating.*
- *Choose Option (9) Sectional Tournaments at Clubs for game rating.*
- *Associate with club (y)*
- *Number of strata-3-**average of both players** (use strat limits below)*
- *Choose proper event restrictions.*
- *Choose the proper status (usually: 1=Championships)*
- *Played sessions (1) (unless setting up a two session swiss)*
- *Enter strat limits (list below)*
- *Multi site (Y) (unless swiss team event)*
- *Enter tournament data*

*Use the sanction number above*

*Enter the EVENT CODE. From the list below*

**Strat Limits:**

**A= 2000+**

**B= 500 - 2000**

**C= under 500**

*Limited games have strats determined by the club.*

*Remember all players in the game must have under the maximum for the game. Use average masterpoints only for determining the strat.*

- *When the game with multiple sites is scored and the recaps are printed, only the session ranks will appear. There are no overalls for the individual clubs.*
- *Back up your game files on disk for reporting to the DIC.*
- *For help creating the proper file, try the Help Link at the bottom of this page.*

## REPORTING YOUR RESULTS

Submit your results via E-mail with the gamefile as an attachment to:

[results1211@d5bridge.com](mailto:results1211@d5bridge.com)

**In the subject line put D5 and your club number, and in the body of the message put your name and phone number so that you can be contacted in case there is a problem.**

After you have attached your file, please check your attachment to make sure that it is the correct file. The file should be in this format: 1012xx.AC# where xx is the date and # is M for a morning game, A for an afternoon game, and E for an evening game. Example: for Monday morning December 7, the name of the attached file will be 101207.ACM. If your file name doesn't look like this, try the help link at the bottom of this page.

**You will receive a confirmation email from Mary.** If you don't receive an email within 6 hours (or by mid morning, if you send the file at night), send email to [results1211@d5bridge.com](mailto:results1211@d5bridge.com)

to inquire about your file.

### *Procedure for attachments to E-mail:*

Sending an attachment is easy. For instance, the following explains how to attach a file using AOL.

1. Click the WRITE icon on the AOL Toolbar.
2. In the WRITE MAIL window, click ATTACHMENTS.
3. In the ATTACHMENTS window, click ATTACH.
4. Navigate to the folder that contains the file you want to attach.
5. Double-click the file you want to attach.
6. Click OK.

Just about every E-mail client has either a toolbar button or menu item that you can use to attach a file. Choosing this option generally opens a standard browsing window that enables you to locate the file you want to attach. After you find the file you want, just double-click and you should see the file path and name in your message header
